### **Substance Use Disorder Treatment Clinics and Programs:**

### **Cultural Alternatives and Options**

Staff at Behavioral Health Clinics have specialized training to assist with a wide variety concerns that impact recovery. Staff are sensitive to culture, gender, and sexual identity. We provide services in an open, caring, compassionate manner. Some staff are bilingual and/or bicultural. For more information about our programs, visit our website:

<http://www.slocounty.ca.gov/Departments/Health-Agency/Behavioral-Health/Drug-Alcohol-Services.aspx>

Services may be delivered by an individual provider or by a team of providers working under the direction of a licensed practitioner operating within their scope of practice. Only licensed, registered, waived, or certified treatment providers are listed on this Provider Directory. Provider assignment decisions will be made by considering availability, specialization, recommendations, and requests. You may request a change of provider by using a Consumer Request Form, available in all of our clinic locations and on our website: [slobehavioralhealth.org](http://slobehavioralhealth.org). Requests to work with a specific provider will be reviewed and authorized when possible.

The medication used in replacement therapy has a dual purpose – it not only blocks the effects of other opioids, but also relieves cravings and withdrawal symptoms. While the medication can cause physiological dependence, it helps prevent other dangerous long-term health problems caused by drug abuse.</p>
